

Adrian Klisz

Senior UX Designer • UX Researcher

adrianklisz.com • kliszaj@gmail.com • (647) 300-1315

I'm a senior UX designer and researcher with over 7 years of experience. I'm passionate about designing humane, thoughtful technology that keeps people connected to what matters most. I'm especially interested in wearable computing and designing for physical interfaces.

Experience

- 2016 – Present
Senior UX Designer • North
Led UX design and research for several core smartglasses experiences including places and navigation, calendar, weather, and notifications. Responsible for overall system-level interaction paradigm.
- 2013 – 2016
Interaction Designer • Christie Digital Systems
Led UX design and research for several business-critical, multi-platform, pro-AV hardware products.
- 2012 – 2013
UX Designer • The App Labb
Led UX design and research for several mobile (iOS and Android) and web applications.
- 2010 – 2012
Researcher • McMaster University
Designed a study that observed the effects of augmented reality (AR) computing on user motivations, behaviours, and other cognitive developments (like sense of place) in unfamiliar urban environments.
- 2010 – 2012
Teaching Assistant • McMaster University
Led tutorials, marked assignments, and invigilated exams for several qualitative and quantitative social research methods courses.

Education

- 2010 – 2012
M.A. - McMaster University
Human, Computer, and Spatial Interaction
- 2005 – 2010
B.A. (Hons.) - U of T
English, Human Geography, and Philosophy
- 2012-2013
Certificate - Humber College
Marketing Management

Other skills

- Experienced in facilitating design thinking workshops.
- Experienced with prototyping software such as Flinto, Principle, InVision Studio, Framer, and others.
- Can effectively translate UX research findings into actionable design recommendations and communicate them to developers and stakeholders.
